

PROVEN PERFORMER

On-Premises Laundry

LFNE5B (front loading washer),
LDEE5B (electric dryer), LDGE5B (gas dryer)

Front loading washer features

- Improved suspension with new out-of-balance logic manages and redistributes unbalanced loads for uninterrupted wash cycles
- High spin speed up to 440 G-Force removes more water from clothes, speeding up drying cycles and lowering dryer energy usage
- A pump drain allows our front load washers to be installed adjacent to or replace top load washers with no special plumbing

LARGE DOOR
OPENING

LOW WATER
CONSUMPTION

LOW ENERGY
CONSUMPTION

ROBUST
DESIGN

Single dryer features

- Durable galvanized steel cylinder with an extra-large 198 litres of volume
- Efficient dryer heating with 5,000 kCal (gas models) and up to 4,000 Watts (electric models)
- Large, easy-to-clean lint compartment
- Reversible door
- 1913.8 sq. cm door opening is the largest in the industry, providing easy loading and unloading

Controls

Front loading washer Electronic Control

The Electronic Control keeps users informed throughout the wash process with cycle status lights and a digital cycle countdown. Users also have the flexibility to control temperature, load type, and soil levels, as well as the option of a pre-wash and/or additional rinse to achieve high levels of efficiency.

Single dryer Electronic Control

The Electronic Control keeps users informed throughout the drying process with cycle status lights and a digital cycle countdown. Automatic (moisture sensing) cycles come standard.

All measurements are in mm. *With levelling legs turned into base.
NOTE: Exhaust openings are 102 mm metal ducting.
Gas models cannot be vented out left side of cabinet because of burner housing.
IMPORTANT: The dryer should have sufficient clearance around it for needed ventilation and for the ease of installation and servicing.
For maximum drying performance, we recommend that more clearance be allowed around the dryer than the
